

# Fort Morgan Waiver Procedure

- Pilot must open NOTAM 30 minutes in advance of flying in waived airspace.
- Open NOTAM by calling **Prescott FSS 877-487-6867**.
  - Request to post NOTAM using terminology similar to: "Aerobatic activity xx zulu to yy zulu - 2 nm radius around FMM surface to 6000' AGL."
  - Give them your name and phone number.
  - Sometimes they have the previous NOTAM on file.
  - Call **Denver Center Air Traffic Control** and advise the same minimum 30 minutes before flying
  - First phone number is **303-651-4245**
  - Second phone number **303-651-4252**
  - These people sit close to each other in Longmont and coordinate overall air space for civil and military operations. Please **call both** numbers.
- You can call all three of these numbers before you leave for FMM if you wish so box is open upon arrival.
- At FMM, read the full waiver and **fill out the log sheet in the FBO office each day you fly.**
- Residences are on south side of box. Avoid as practical to be good neighbors.
- Call all three numbers when you are done and **close session**.
- Full Waiver and this procedure are on the IAC Chapter 12 website.
- Nighttime aerobatics are not permitted unless you coordinate this with Duncan Koerbel ahead of time.
- Go Fly. Be safe.

**PILOT WAIVER ACKNOWLEDGEMENT**

I have read and I understand the conditions of this certificate of waiver. I agree to comply with all of its provisions.
